Summary

All-source intelligence analyst and 21-year U.S. Air Force veteran with extensive experience in strategic and operational analysis, intelligence planning, and personnel management. Proven expertise in conducting complex research, assessing adversary capabilities, and optimizing intelligence operations to meet mission objectives. Adept at leading multi-domain teams, identifying capability shortfalls, and driving decision-making processes through data-driven analysis. Skilled in briefing senior leaders, developing intelligence plans, and integrating intelligence collection methods to support steady-state, crisis, and contingency operations across multiple combatant commands, including USAFRICOM, USEUCOM, USSOUTHCOM, USFK, and NORAD/NORTHCOM. Two years of deployed experience supporting NATO Training Mission – Afghanistan and USSOCOM operations.

Active Government Top Secret/SCI Clearance; 1/17/2025

Key Intelligence Roles

Concurrent throughout 17-year career

Intelligence Planner

5 years

- Led strategic intelligence activities to provide adversary capability assessments and realistic conflict scenario development for numerous combatant command operational planning events.
- Conducted predictive analysis to determine most-likely and most-dangerous adversary courses of actions and inform operational planners of strategic threats to U.S. military capabilities.
- Developed Information Needs, Source Directed Requirements, as well as standing and ad-hoc Collection Requirements to meet strategic and operational commander objectives.

Intelligence Manager

9 years

- Directed multiple departments of intelligence operations and analysis activities, overseeing organizations with 90+ military, civilian, and contract personnel.
- Managed professional development for teams consisting of a variety of intelligence specialties, and rapidly designed niche training plans for new or emerging capabilities and requirements.
- Optimized employment of strategic and operational intelligence collection missions, maximizing the use of all available intelligence sources, resources, and assets.

Intelligence Analyst

17 years

- Conducted in-depth research on air, space, cyberspace, political, and technology topics in the Americas, European, Pacific, and Middle Eastern regions, with a focus on near-peer threat actors.
- Presented complex informational briefings to senior leaders and action officers to guide decision making on military operations, acquisitions, capability development, and global/theater planning.
- Produced targeted intelligence assessment products by fusing signal, imagery, open source, and human intelligence via technical writing, graphic visualization, and verbal presentation.
- Evaluated and analyzed vast quantities of intelligence and open-source data, rapidly developing strategic/operational understanding to provide senior leaders' decision quality recommendations.

Professional Experience

Lead Associate, Foreign Influence Analyst

Nov 2022 – Present

Booz Allen Hamilton
Stuttgart, Germany

Lead a 25-person contract team supporting intelligence analysis for a U.S. DoD command focused on the African theater. Oversaw hiring for a 100+ member team while providing intelligence analysis that shaped strategic planning and multinational coordination efforts. Directed team performance, deliverables, and compliance, mentoring six direct reports to meet mission objectives and client expectations.

- Identified and assessed foreign influence campaigns and adversary activities, informing the command's operations and validating the use of unique operational authorities.

- Co-authored an irregular warfare strategy with counterparts across multiple combatant commands, securing DoD alignment on adversary-focused initiatives.
- Produced predictive analysis on adversary influence within a strategically significant African nation, guiding multinational decision-making and engagement strategies.

Section Chief and Intelligence Planner

Jan 2020 – Oct 2022

Cyberspace Operation - Integrated Planning Element (CO-IPE)/USEUCOM

Patch Barracks, Stuttgart, Germany

Established the intelligence division for a new military organization designed to provide cyber domain subject matter experts to advise/guide U.S. European Command's objectives, planning, and operations.

- Subject matter expert on near-peer adversary capabilities and operations which could pose a threat to U.S. CI/KR, military C4I, and theater partner/ally security in the cyber and info domains.
- Delivered expertise on advanced persistent threat/intrusion set activities, capabilities, and plans to posture USEUCOM/USCYBERCOM cyber defense and defeat of highly capable adversaries.

Operations Superintendent	<i>612th Air Operations Center</i>	Jun 2018 – Dec 2019
Senior Intelligence Analyst [†]	<i>Operation Hornet Fusion Cell</i>	Jan 2018 – May 2018
Section Chief, Analysis	<i>612th Air Operations Center</i>	Mar 2017 – Dec 2017
Flight Chief, SIDO Team	<i>607th Air Operations Center</i>	Feb 2016 – Feb 2017
